Berlin, den 9. September 1895

Mr. O. Chanute

Replying to your esteemed favor would say that my U.S. patent bears the No 544.816 and was granted Aug.20, 1895. Its priority dates from Febr. 28, 1894.

The transfer of this patent together with the delivery of a sailing apparatus would be effected by me for not less than \$ 5.000,00. I repeat that in ease of my selling this patent I would consider it my duty to acquaint the buyer at once with all the innovations and also with all the publications made by me on this subject.

Awaiting your further favors, I remain

Very resp.

Otto Lilienthal
