

Brief von Otto Lilienthal an Ocatve Chanute
handschriftlich

Original: Library of Congress, Washington
Übersetzung veröffentlicht in „Otto Lilienthals Flugtechnische Korrespondenz“
Otto-Lilienthal-Museum Anklam 1993

Berlin, den 11. September 1895

Mr. O. Chanute

To complete my last letter, I will tell you, that the innovations introduced by me on my sailing apparatus are directed especially towards facilitating their governing. I succeeded in constructing the apparatus of a size of 20 square m. (215 sq.ft.) so that they can be handled without danger in a wind of 10 m per second.

These apparatus would cost about Mark 100,00 each if made wholesale.

I have sold many of them at Mark 500,00 in England, France, Austria, Switzerland and Germany.

Very resp.

Otto Lilienthal
